Osaka Metropolitan University Hospital

## The philosophy of Osaka Metropolitan University Hospital

---

Based on the Faculty of Medicine's founding spirit "Wisdom, humanity, and courage,"

1. we will provide high-quality healthcare that contributes to local residents' health;
2. we will nurture spiritually rich and trustworthy medical professionals; and
3. we will make continuous and tireless efforts to further advance healthcare.

### Basic policies

---

- Provide patient-centered, safe, and high-quality medical care
- Contribute to the improvement of community healthcare
- Promote health and preventive medicine
- Offer the latest advanced medical treatments
- Nurture skilled medical professionals with a wonderful personality and international awareness
- Develop new diagnostic methods, treatments, and preventive medicine
- Advance diverse high-quality research

### Rights of patients

---

- You can receive safe and high-quality medical care.
- You can voluntarily choose treatment.
- You can receive sufficient explanations and information.
- You can be referred to other hospitals if you want a second opinion.
- You can receive medical care that respects your dignity as a person.
- Your personal health information and privacy are protected.
- You can receive health education.

### Children's rights

---

- Children and parents have the right to be informed about diseases and treatments in a manner appropriate for their age and understanding and to participate in all decisions.
- Children have the right to be protected from unnecessary medical treatments and investigations.
- Children have the right to have their parents or parent substitute with them at all times.
- Children have the right to have opportunities for play, recreation and education suited to their age and condition.
- Children have the right to be treated with tact and understanding, and their privacy shall be respected at all times.

### Responsibilities of patients

---

- Provide necessary information accurately, such as the state of your disease.
- Positively work on the medical policies that you have understood and agreed to.
- Follow the rules and instructions of the hospital.  
(If there is any verbal abuse, violence, or nuisance, we may report it to the police)
- Pay medical expenses in a timely and appropriate manner.

### Requests for all patients

---

- Please provide your health information as accurately as possible.
- Please ask if you have any questions about the explanations given by the hospital staff.
- Please follow the instructions and advice necessary for medical care.
- Please respect the rights of other patients and be considerate not to cause trouble.
- Please cooperate in clinical trials and clinical studies.
- Please understand and cooperate with the development of medical professionals and research, which are the responsibilities of a university hospital.

# Consultation Procedure

## Reception hours for first visits

8:45 a.m.-10:30 a.m. (excluding non-consultation days)

## Non-consultation days

Saturdays, Sundays, holidays, and New Year's holidays (December 29-January 3)

## A Letter of Referral (patient introduction form) is required for the first visit.

Osaka Metropolitan University Hospital is designated as an "Advanced Treatment Hospital" by the Ministry of Health, Labour and Welfare, which provides highly advanced medical care. If you are visiting our hospital for the first time or making your first visit to a department, in principle, **a letter of referral (patient introduction form) from another medical institution, such as your primary care clinic or hospital, is required for your initial consultation.**

Since we are providing medical care in cooperation with local medical institutions, be sure to bring the required letter of referral in order to facilitate your medical examination.

The merits for bringing a letter of referral (patient introduction form) are as follows:

- The doctor can promptly grasp the state of your disease, and the same kind of examination performed by your primary care physician is not required.
- You don't have to pay the selective medical treatment charge for the first visit or for the re-visit.

## Selective medical treatment charge for patients without a patient introduction form

If you do not have a letter of referral (patient introduction form), you are required to pay 11,000 yen (10,000 yen without tax) for the first visit and 3,300 yen (3,000 yen without tax) for return patients for the "selective medical treatment charge" in addition to medical expenses (excluding emergency patients and patients on benefits).

The same applies to patients without an appointment who have not been examined for at least one year. (as of December 2025)

\* You may not be able to see a doctor depending on your symptoms, etc.

## Appointment-only departments

The following departments need a letter of referral (patient introduction form) and an appointment.

Please make an appointment from a medical institution, such as your primary care hospital, through our Community Healthcare Liaison Office.

Orthopedic Surgery/Oral and Maxillofacial Surgery/Clinical Immunology and Rheumatology/Department of Clinical Genomics/Ophthalmology

## Booking an appointment

You can book your appointment only through your primary care physician or other local medical institutions (hospitals or clinics). We do not accept direct bookings by patients. If you come to our hospital without booking an appointment, you may have to wait for a long time. Please also note that you may not be able to see a doctor on the same day.

### Contact information from medical institutions:

**Community Healthcare Liaison Office 06-6645-2877**

Reception hours 9:00 a.m.-7:00 p.m. (excluding Saturdays, Sundays, holidays, and from December 29 to January 3)

\* Appointments by patients are not accepted.

## Request for patients

### Have your primary care physician

We provide medical care based on referrals from medical institutions inside and outside of the city as well as in cooperation with doctors who are "registered doctors for medical cooperation" at many medical institutions. After the diseases of patients have been stabilized or after they have entered the recuperation period following specialized care at this hospital, their conditions will be followed up at other medical institutions or by the primary care physicians who referred them. If you do not have a primary care physician, you should find a physician who provides routine medical care and health care near your residence.

### We are a teaching hospital

To produce excellent physicians, nurses, paramedics, etc. who will contribute to society, we provide medical education and training to medical/dental residents, nurses/nurses' aides, and medical/nursing students under the supervision of advising physicians and nursing staff. Your understanding and cooperation are greatly appreciated.

# First Visit

Homepage  
"First visit"

Please read it with your smartphone.

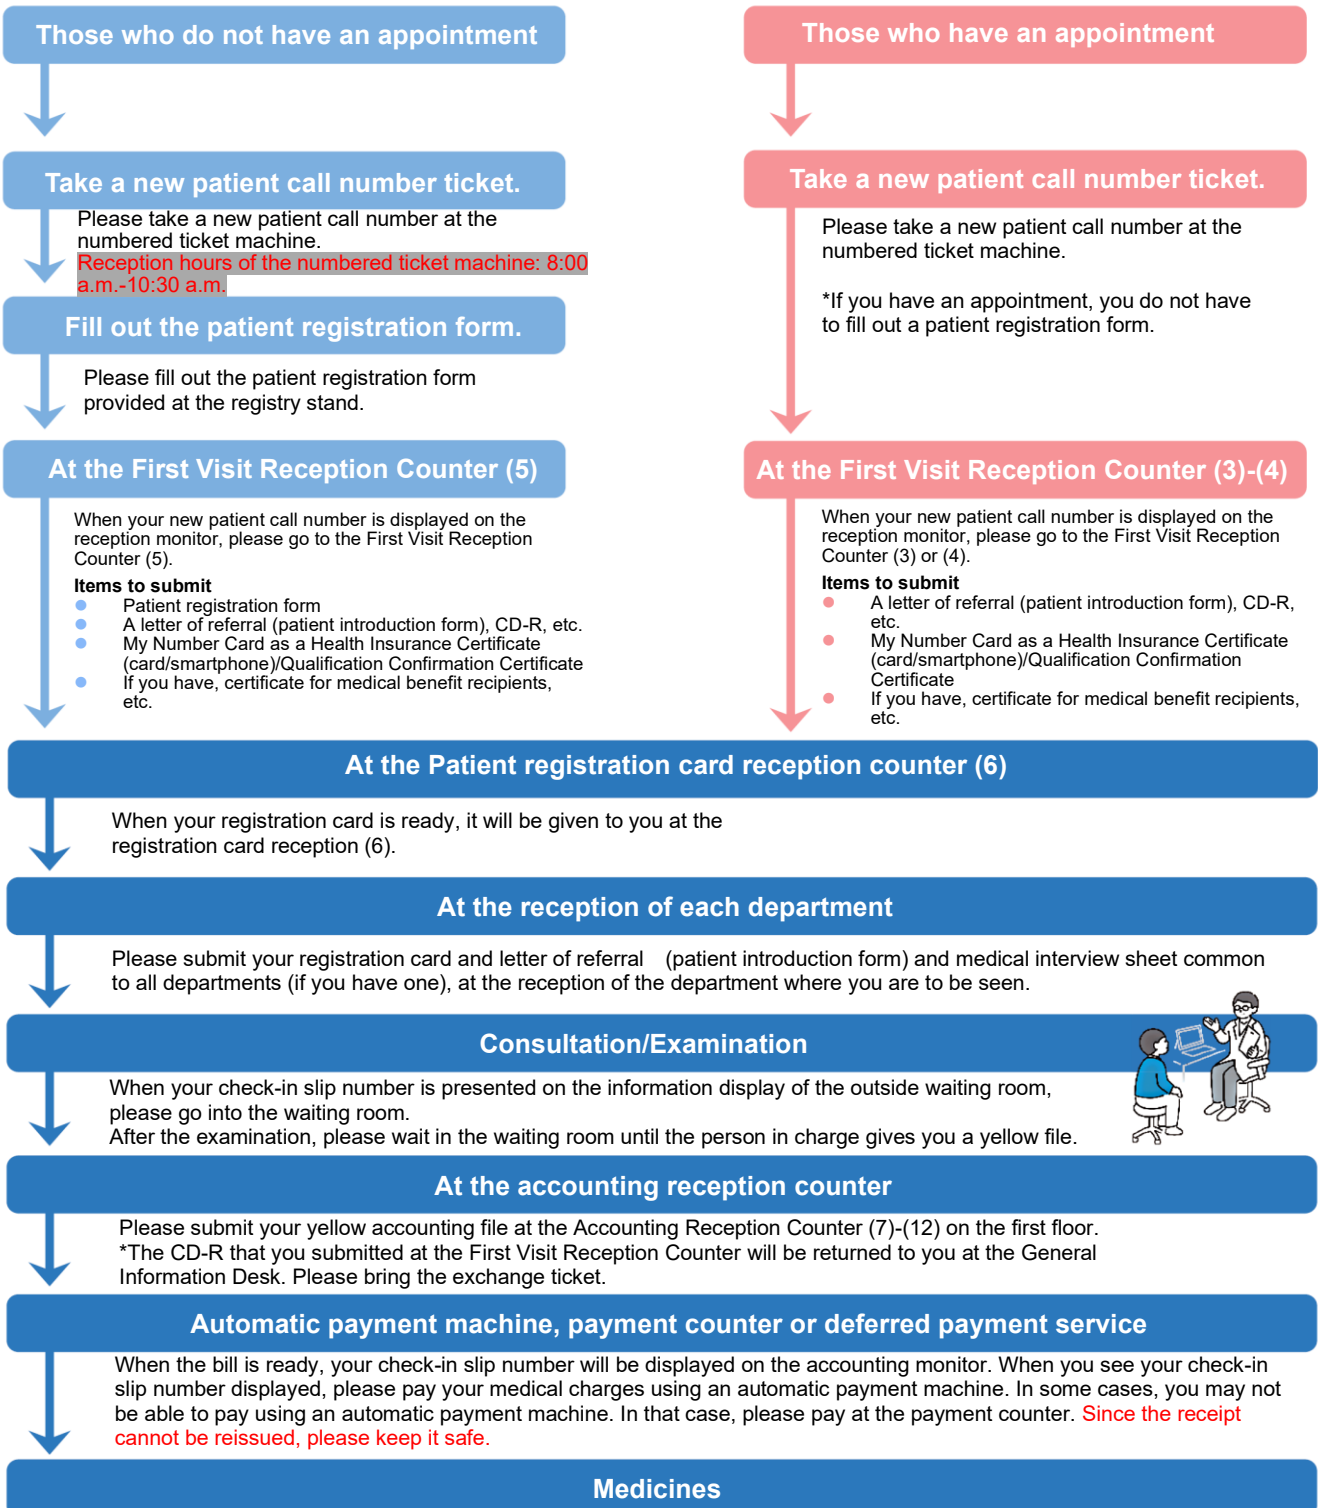

- Those who are examined for the first time
- Those who have not been examined for over a year
- Those who have been examined within the year and have completed treatment at the department
- Those who are visiting another department(s) for the first time

Reception hours for the first visit: 8:45 a.m.-10:30 a.m.

## Flow of check-in and consultation for the first time

### What you need

- (1) A letter of referral (patient introduction form)
- (2) Graphic data, such as CD-R (if you have one)
- (3) My Number Card as a Health Insurance Certificate (card/smartphone)/Qualification Confirmation Certificate, certificate for medical benefit recipients, or medical ticket (for welfare recipients)
- (4) Medication notebook or instructions indicating the drug name and dosing regimen (if you have one)
- (5) Medical interview sheet common to all departments (if you have one)

In principle, an external prescription will be issued. Please bring your prescription within 4 days, including the day of prescription (including Saturdays, Sundays and holidays), to a health insurance pharmacy.  
\*In the case of reissuing your prescription after it expires, it is not covered by health insurance, and you have to pay at your own expense.

# Re-visit

Homepage  
"Re-visit"

Please read it with your smartphone.

- Those who re-visit the same department (Those who have an appointment for a medical examination)
- Patients who are to undergo tests only  
Blood test, X-ray, CT, MRI, etc.

## What you need

- (1) Patient registration card
- (2) Appointment slip
- (3) My Number Card as a Health Insurance Certificate (card/smartphone)/Qualification Confirmation Certificate, etc.
- (4) Medication notebook or instructions indicating the drug name and dosing regimen (if you have one)

## Flow of check-in and consultation for re-visits

### Those who have an appointment

Please visit at the time on the appointment slip that you received in the previous consultation.

### Check-in using the Re-visit Reception Machine

Insert your registration card into the Re-visit Reception Machine. After you verify your appointment and touch the confirm button, your check-in slip will be issued.

**Reception hours: 8:00 a.m.-4:45 p.m.**

\* If you have no appointment, you cannot check in using the Re-visit Reception Machine.

If your health insurance card has expired, you may not be able to check in as a re-visit patient even if you have an appointment.  
If an insurance confirmation message is displayed on the Re-visit Reception Machine screen or check-in slip, present the health insurance card to the Insurance Certificate Verification Counter.

In front of the Out-of-Hours Reception on B1	1 machine
Next to the General Information Desk on the 1st Floor	5 machines
Next to the Insurance Certificate Verification Counter on 1F	1 machine
Next to the Insurance Certificate Verification Counter on 2F	1 machine

\* Outside regular hours, please proceed to the Out-of-Hours Cashier on B1.

### At the reception of each department

Please submit your registration card and appointment slip at the reception of the department where you are to be seen.

### Consultation/Examination

When your check-in slip number is presented on the information display of the outside waiting room, please go into the waiting room.  
After the examination, please wait in the waiting room until the person in charge gives you a yellow file.

### At the accounting reception counter

Please submit your yellow accounting file at the Accounting Reception Counter (7)-(12) on the first floor.

### Automatic payment machine, payment counter or deferred payment service

When the bill is ready, your check-in slip number will be displayed on the accounting monitor.  
When you see your check-in slip number displayed, please pay your medical charges using an automatic payment machine. In some cases, you may not be able to pay using an automatic payment machine. In that case, please pay at the payment counter. **Since the receipt cannot be reissued, please keep it safe.**

### Medicines

In principle, an external prescription will be issued. **Please bring your prescription within 4 days, including the day of prescription (including Saturdays, Sundays and holidays), to a health insurance pharmacy.**

\* **In the case of reissuing your prescription after it expires, it is not covered by health insurance, and you have to pay at your own expense.**

### Changing your appointment

To change, cancel, or check your appointment, please use the AI telephone system. Reception hours are 24 hours a day, 365 days a year.

### Medical certificate and other certificates

For applications for medical certificates, etc., documents to be issued later are handled at the Medical Certificate Reception Counter (22) on 1F. Documents available for same-day issuance are handled at the reception of each outpatient department.

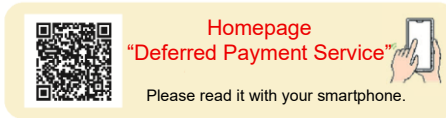

### Patient registration card

The patient registration card is commonly used at all departments. Please keep it safe.

If there are any changes to your name, address, phone number, or health insurance information, please proceed to the Insurance Certificate Verification Counter.

If you have lost your patient registration card, please report its loss at the Accounting Reception Counter (14). An additional charge will be required for reissue.

# Deferred Payment Service

- We have introduced a deferred payment service to reduce the burden on patients and those who accompany them as well as the waiting time. This is a reassuring and safe cashless service exclusively used in this hospital that allows you to immediately leave the hospital without the need to wait to pay. Those who have the patient registration card of this hospital and credit card and have registered for the service in advance can go home with no need to pay on the same day. Medical expenses will be settled with your credit card 5 days or later after the consultation.
- Registration and use of the service are free for patients. The service can be used for outpatient visits and admissions.
- For more details, kindly check the page for the "Deferred Payment Service" in the homepage of this hospital.

## 【How to use the service】

- 1 Please register using the following URL or two-dimensional code. If you have completed the registration, you can utilize the service the same day.  
omu.info/a-atobarai
- 2 Please issue a deferred payment service slip with your registration card using the deferred payment service machine on the first floor of the hospital.
- 3 After consultation, please submit the slip with the yellow file at the accounting reception counter for deferred payment (18) on the first floor of the hospital.
- 4 Medical expenses will be settled with your registered credit card **5 days or later after** of the consultation.

\* Only for lump-sum payments

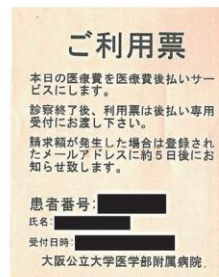

JCB/AMERICAN EXPRESS/Diners Club/ VISA/Mastercard

- 1 Two-dimensional code for registration

## Photographing and recording policy

In consideration of the privacy of our patients and staff, we do not allow the taking of pictures or recording videos in our hospital with cameras, video cameras, mobile phones, etc. without our permission.

## Management of valuables and prevention of theft

- Please keep your valuables by your side. We will not be liable for theft or loss in the hospital.
- Surveillance monitors are installed for crime prevention. Please take note in advance.
- If you see a suspicious person, please notify a nearby hospital staff member.

Your understanding and cooperation are appreciated.

## In the event of an emergency or disaster

In the event of an emergency, such as an earthquake, fire, or disaster, follow the guidance of a physician, nursing staff, or hospital staff.

- Please have good manners, and share common spaces with other people.
- Our hospital has established a "Basic Policy on Patient Harassment." If you conduct yourself in a manner that may disturb the order of the hospital, such as an act that bothers other people, drinking, violence, abusive language, or an illegal act, you may be forced to leave the hospital. For details, please check our hospital website.
- We strictly decline gratuities and gifts to physicians, nursing staff, and hospital staff.

Homepage  
"Basic Policy on Patient Harassment"

Please read it with your smartphone.

# Departments

Reception hours for the first visit: 8:45 a.m.-10:30 a.m.

In principle, a letter of referral (patient introduction form) from another local medical institution, such as your primary care physician or hospital is required.

However, you may not be able to see a doctor depending on your symptoms, etc.

Consultations for pregnancy in the Obstetrics & Gynecology are available without a letter of referral (patient introduction form); however, a selective medical service fee will apply.

Floor	Department	Reception no.	Main target diseases
B1	Diagnostic and Interventional Radiology	35	Cancers, including hepatocellular carcinoma and lung cancer, endovascular treatment for arteriosclerosis obliterans and portal hypertension, radiofrequency therapy, etc.
	Radiation Oncology		Malignant tumors in general, some benign tumors, etc.
	Nuclear Medicine	36	RI diagnosis (scintigraphy, PET scan, etc.), RI therapy (thyroid cancer, Basedow's disease, and neuroendocrine tumor), etc.
1F	General Medicine	01	General internal medicine, fevers of unknown origin, etc.
	Department of Infectious Diseases		Infections in general, respiratory infections, etc.
	Department of Clinical Genomics		Genetic diseases in general, genetic counseling, genetic diagnosis, etc.

## By bus

Osaka City Bus	Ichidai Byoin mae	One-minute walk approximately
----------------	-------------------	-------------------------------

## Parking lot

There is a fee to use the parking lot. The parking space is limited and very crowded. Visitors are recommended to take public transport.

\*If you visit the hospital by car, use the underground parking lot of the hospital.

Business hours: 8:00 a.m. to 8:00 p.m. (Do not leave your car there outside of the business hours.)

Parking capacity: 268

### Parking fee

(Revised April 2026)

<b>Outpatient patient fee</b>	<b>60 min. 300 yen / Max. daily fee 1,500 yen</b>	<b>The hospital check-in slip is required at the time of payment.</b>
-------------------------------	---	---

- Various cashless payment methods are accepted.
- Parking spaces are limited, so we ask for your understanding if you cannot find a space. The hospital is not responsible for theft, accidents, or other problems in the parking lot. We ask you to take care of your own belongings.

### \* Regarding fee reductions for holders of disability certificates and similar:

Those holding a Physical Disability Certificate, Mental Disability Health and Welfare Certificate, Medical Rehabilitation Handbook, or Atomic Bomb Survivor's Handbook, as well as Mirairo ID holders, should present their certificate at the General Information Desk or the parking lot management room before payment. A parking service voucher will be issued. The reduction applies only when the certificate holder is in the vehicle (as driver or passenger). (The standard fee is not eligible for reduction.)
